## THINKS GANDHI IS OUTSTANDING MAN OF THE AGE

Kirby Page Discusses  
Indian Leader at  
Convocation

## 2 SPEAKERS LAST NIGHT

Dr. Beaven and Dr. Hud-  
son Address Ministers'  
Conference

"Who is the greatest man of the age?" Kirby Page, author, minister and world traveler, asked the student body of the University and delegates of the State-Wide ministers' conference at convocation in the University Auditorium at 10 o'clock this morning. "I would place Mahatma Grandhi near the top, if not at the top of the list. More than any man I have met he reminds me of the carpenter of Nazareth."

Mr. Page, who spent three days in Gandhi's home and ten weeks questioning his intimate friends, interpreted Gandhi, leader of the opposition to British rule, and the political situation in India. Mr. Page thinks that Americans do not understand clearly Gandhi's purpose.

Gandhi says it is a bad thing for people to be ruled by foreigners. It creates a slave mind and servile mentality. His policy is passive resistance. His technique in dealing with the British is refusing to co-operate or to accept their terms since he thinks 330,000,000 people cannot be ruled by 165,000 without the aid of the subject country. Gandhi would boycott the British.

According to Mr. Page Buddha is the only leader India has had who could equal the influence of Gandhi. His devotion to the poor is one quality that makes him the leader that he is. Mahatma Gandhi is devoutly religious. As a lawyer in South Africa he could have been wealthy. He prefers to stand for political and social freedom in India.

### Believes Gandhi Will Succeed

AN. WEDNESDAY, JULY 9, 1930

Saturday P.M.

Dear Kirby -

How good it seems  
to think of you in the U.S.A.  
Do hurry along so we can  
have a glimpse of you  
before I leave for Cleveland.

I'm sure you were really  
disappointed the children  
did not come to Colorado  
and I don't blame you.  
But bringing everything pro  
and con - and the thing that  
really carried much weight  
was that Anna's letters  
were so full of being so  
tired and longing to get to  
Texas where she could really  
rest - and frankly Kirby I  
did feel it was wise to

of the Conference grounds would be cheaper, but  
would you get the "alone-ness" you want?

Where Alma goes to Tucson have her  
get in touch with Ina Gittings at the  
University - she canceled her summer  
at Estes and will be at her ranch  
until July 1<sup>st</sup> - she will be a keep and  
is interested in Ray. There is much  
I'd like to say regarding school  
and I wish I could talk with you  
before you decide, but realize that  
time is limited. Ray likes the Fremont  
Ranch School - but I'm not sure to the  
place for him. If you intend him to go  
to College Kirby you will have to put  
him somewhere where he will have  
good instruction individually - there is  
a real and vital problem with Ray and  
his lessons - he isn't interested and  
just won't work unless he is - of course  
is partly physical, but is also a lack  
of concentration and no driving interest.  
His I.Q. is 108 this yr. against Mary's  
138 - and so I hope for a school  
that has a scholastic standing, but which  
understands the individual boy and gives him

for herself and the parents  
that she spend sometimes  
there. Johnnie wrote he  
no uncertain terms + what  
she thought about your ideas  
are not having the children  
come and I that if Alena  
didn't go it would be a  
real battle. I did also  
want Alena packed and  
ready for the job + getting  
they ready for school.

Its all fixed with Camps  
to have the children leave  
Aug. 1<sup>st</sup> - so I hope you can  
find a nice place for August.  
Everything the Lord's will is  
grand but so expensive, but  
we have't ready for your  
decision - no doubt one

the needed attention - Ray  
has the idea a bit I fear  
that "to all play and no  
work" - he wants a horse  
and freedom! He has said  
to me a number of times  
this year "Aunt Betty I hate  
to be tied, I hate to have to  
do things, I hate to live in the  
city - I want to be free".  
There is a pathetic note in  
it all - I've tried to explain  
freedom a bit - but Kirby  
out of your wisdom and  
your guide the lad a bit  
along this line. He needs  
you so very much and he  
feels so far away from you.  
I do want to talk to see

kin extra beds - so you could be cool & enjoy each other a bit - Luv-Bill!

I wrote you that Dr. Clark at Lincoln  
Highly recommended Sonteress Arizona  
School for boys. I am not quite so  
impressed with it - mainly I fear because  
Dr. Clark recommended it - He has a complex  
on said gentleman Ha! I'm having him  
write you which school he likes & why.  
I am picnic & eighth grade boys.

He is off to a picnic of 8<sup>th</sup> grade boys today on Long Island State. He goes to Camp the 15<sup>th</sup> and can hardly wait. His trunk is all packed and thank he had Mary is sewing -

all tags sewed on - Mary is sewing -  
has made herself two dresses very nicely  
a lovely piece of

My Kirby she is a lovely piece of  
girlhood - wholesome, pretty and a  
good mind - you are going to be very  
proud of her one of these days. Not easy  
to handle at times but no thoroughbred is

+ handle at times  
2 guess - anyway I for 'see boat and  
you can give me better one ! Ha!  
Know your animal in N.Y. and

you can give me  
let me know your arrival in N.Y. and  
I'll try <sup>and</sup> place accordingly. Could Alice  
stop this morning N.Y. I want a good  
visit with her without the children sometime  
this fall — Don't you want to stay here at  
670 with Gene three <sup>or</sup> four. I've rented only  
two rooms so far and have

out with you - because I want  
the weeks you have together  
to be ones the boy will never  
forget. I hope you can do  
something alone. He is  
fearfully jealous of Mary. He  
will "nip & tuck" at times to  
keep a wire course and know  
which way to turn - When  
believe me, being a parent is  
some job! I've learned heaps  
this year thanks to you.

I hope all the Arizona  
material reached you and  
you have had the Catalogs.  
I'll write Alma soon as I  
know her address and will  
send one in care of Jan-  
Gittings to Tucson. I think

I hoping I'm still here when  
K.P. Sr. finds in N.Y. I have to  
be in Cleveland July 6<sup>th</sup> for Dad's  
operation and will then go home  
with him for two months. -  
Wish Alma could come home  
that way and stop off with me  
a bit. We will write later about that.

Word has just come today  
that Bro - comes down May 15<sup>th</sup>  
1931 - All tenants must be out  
May 15<sup>th</sup> - So write her what to  
do, about Apartment 61. They won't  
come down in rents anywhere  
as so many are moving out  
So I feel Quee and I will  
seek a nest somewhere else.  
Two of my good old Cleveland  
friends are here and want

I'm afraid I won't have time before I go  
to go over to Sunnyside and look over the  
furniture as you asked me to - See heaps  
of - 6 - do for the children for Camp -  
Right now we are "tenting-up" - Ray had  
five ~~filled~~ <sup>filled</sup> Mary four or five - The District  
evidently that I was permanent Guardian  
and blew me to several leaves - wants  
to see them every two months - then I  
have to try and rent rooms or apt. for  
summer school, and Mrs. Guthrie comes  
in June to pick for S.A. on June 20: so  
life is full to the brim, but I'll keep  
when you come in Sept. with my few  
meager ideas. I'm still working out a  
few pet things myself - making flip  
covers for lamp and chair - and took  
what a joy.

Much much love to you both and  
how good it will be to see you - but  
I love our my "dearly 'adopted ones"  
with a bit of wraps and I'll always  
claim a wr. or 2 - Ray says I  
can have the little piece behind his ear  
that I always own is dirty!

To love me if I've made a mistake in  
choosing Camps - I tried hard to work it  
out for the best -

Ever  
Betty.

to live here as next year they  
much, but Jim waiting to see if  
the Co. would let me have a  
5 room one for 100% if not then  
we go T.C. Jim so tired right  
now and to dash home Sept 1<sup>st</sup>  
with a new job to tackle and  
now almost makes me dizzy  
but there has been strength for  
many added things this year &  
why borrow trouble.

Do hope Alena has a good  
visit and rest in Texas, and  
you'll come home in good  
trier for the fall. To get Kay  
ready for school and get up  
the home will need a bit of  
extra pep - Hope I'll not be  
too tied up to keep you some

Writing a paper on Gandhi and  
what an assortment of material  
she has gathered. She even  
dashed to town to get the gallery  
prog on Kirby's new pamphlet -

Now to Mary's plans. All  
along she much wanted Camp,  
but not Y.W. - or else go home  
with me - I would take her to  
I knew my own plans better &  
what was ahead with Daddy -  
So when Niguesnum Director  
(Mr. Gucker's sister-in-law) came  
down to \$500 per week, Betty  
and I figured it was cheaper than  
Colorado, Texas etc. I'm sending  
you the pamphlet and pictures  
of the camp. I'm sure you will  
be glad for her to have the  
experience - to a lovely group

One real "pit-to", and I decided no more.  
I hardly paap for either one. She is a  
dear and I'm quite sure will soon  
discover her powers - Her school work  
came up beautifully - She can do it - with  
little work - altho you see she was put in  
a high Mental Group this year and has  
had to do a good bit of ~~school~~ <sup>home</sup> work to  
keep ahead - to hard on 9 o'clock bed times  
and music practice in the A.M. - and a  
bit hard on roses in her cheeks, but she is  
fat and wire.

I do wish I could talk with you before  
a school is decided upon in Arizona for Ray.  
He just can't be shoved too hard and is not  
ready quite for High School. If he can  
have a good bit of individual work and  
attention he will come along, but he  
simply rebels at having to do things, and  
so it takes a wire teacher to handle him.  
If only he weren't so shy and reticent &  
would "speak up" - but he's coming along  
I'm not worried about him - I only wish  
Dr. K. could have him another year. He  
loves her so and will do anything she  
says. I only hope Arizona has a school  
that isn't too keen on "preparing for College  
with 100% grades" - because's forbid. I  
write me I want at all interested -

of girls - Much of Mary's type,  
and will mean a great deal  
to her. I'd love to see your  
faces when you see her first.  
She has grown so - changed so,  
much of her tom-boy ways gone,  
and much poise and charm,  
but I'll admit hard at times  
to handle - Sometimes I've wished  
she was my own so I could  
just plain spank her - and  
then I'd realize that she wasn't  
really naughty - but she hurt  
my own pride and ego by  
just plain ignoring me - She  
but defiant - she just plain  
looks at you and goes her own  
sweet way in her own sweet  
time - We have had only

day its perfectly safe to send him to  
Camp. Mr. Quaker understands  
him keep a watchful eye on him  
have the nurse examine him  
chiefly and see he gets a  
needed amount of rest. He is  
growing so - Mercy I'm sure  
you will think I've fed him  
string beans!

Then another thing - I've not  
had time to get all the  
information I would like about  
schools in Arizona. I'm hoping  
some materials will reach  
you in San F. and Estes. I'm  
interviewing all the time. I've  
written letters to several  
friends and have got to hear  
from some - I'm sending in

has a ranch out from Tucson and will  
no doubt take Kay under her wing at  
times - I hope she will and I'm sure  
I'll be hearing in a few days. -

To get Kay thru Math this past month  
we had to get a tutor - Dr. Clark felt it  
would be bad for him to fail - after his  
failure in French last year and his  
grades aren't any too good for entrance  
to another school - Kay didn't tell me  
his difficulties until he was given a  
project to do and I just floored him -  
So, as per usual, trotted me down to Lincoln  
and found a situation that was too late  
to remedy except by tutor - I'm sorry to  
add any more to the family expense,  
but it was necessary to save the grade.  
The tutor says he is doing fine - to  
the same old question or problem "fear of  
competition and the group" - he does  
well in things he does alone, but the class  
work seems hard for him - He will come  
along allright in time - and I'll be  
glad to see him away from Mary's  
brilliance - She is coming along like  
a pleasure engine - I'm amazed at  
some of her accomplishments - She  
had a few hard months, but didn't  
play down long - Right now she is

Another letter all the material  
I have. Kay is keen for it, but  
I admit I wish I was going  
along to keep an eagle eye  
out for him. (again as "vimmies")  
I have a very good friend  
Ma Gittings who is Physical  
Director at Univ. of Ariz. and  
she will be in Estes Park  
all summer (has a gift shop  
there) She was here first  
semester and grew fond of  
Kay and was the one who got  
him interested in Arizona.  
I'll written her to get in touch  
with you at Estes - I feel  
she will be our connecting  
link and a keep to Kay - she

for all, living expenses, etc.  
Camp for both was several  
hundred dollars cheaper, and  
that seemed an item -  
If Kirby<sup>sr</sup> was going to be in  
Colorado the full time, so  
you could have a cottage  
and stay in one place. I don't  
think we worried + hesitated  
quite so much - Also I  
admit I told Alma and  
her long looked for visit to  
Texas and felt it was pretty  
much to have her give up  
unless absolutely necessary.  
Ray needs to get away from  
"us wimmins" - he depends  
and turns too much to us.  
It was a real job to show

This I find is one of his biggest hindrances  
he always want to do it differently -  
always want to change the plan - go a  
different way - do a different game  
from one suggested. Mr. G. said I talk  
him three weeks at Camp last summer  
to get him into the Camp routine. Its  
terrible hard for Ray to conform. If told  
to wear a sweater he wants to wear a  
coat etc. All this I can understand  
and Dr. K. has been helpful and we  
go into it all with you when we get  
together - its too long to write - So  
my dears please understand I tried  
to decide on the basis of the boy and  
not your feelings - Of course I'm  
doing it hopeful you will be get-  
together in August - and I do hope K. G.  
goes up to Camp Lincoln for a week-end.  
I'm sure it will do Ray good to have  
a real chance alone to show off his  
Dad - your promising to come pleased  
him - Ray's physical condition is  
good at present - that is the lungs have  
cleared up - there have been no coughs  
for several weeks and no temperature  
unless he gets very tired. Both Drs.

hike off on Gene & Arnold and  
no matter where we go before the  
sunrise is on Kay is close to  
the leaving Gene trail along  
alone - & Arnold - I'll be  
a bit pitchless with him and  
think I see a bit of improvement.

I know, under the circumstances,  
you want him from as you  
found - but I also know you  
want for him what is for his  
own best good and Camp seems  
to answer that. Mr. Gucker  
says Kay has grown in many  
ways this year - that his  
attitude on many things  
have changed - his group spirit  
is better - he is not so eager  
to always want to change things

Dearest Folks: -

A grand and glorious 'Welcome Home' and how we all wish we could be on deck to demonstrate our feelings - but - we send you many thought waves and have planned a grand jubilee for fall.

I feel the past few weeks have been terrific ones for making decisions - and I've tried so hard to do the very best considering all things - When Kirby's cable came saying "Send Children to Colorado" I immediately got in touch with Dr. K. and I talked it all over with Kay - Kay was fearful he would have to be in a Conference group - all adults - And since he didn't

just come from the Camp Mary. Specially wanted saying they would reduce the tuition from \$50.00 to \$35.00 per week if that would keep and Mary was so eager and on tip toe to get a decision —

Dr. Kenworthy's verdict was that Camp was still best. You see the glandular treatments have meant somewhat of an adjustment for Kay — he is nervous in this way "what will we do next" — can't be content at any one thing long and Dr. K. says he needs now, continual guidance and things planned for him to keep him busy yet not over-scheduled — in fact needs a scheduled life — so many hours sleep, so much play, regular meals and a good husky diet. Mr. Grucker understands all these things as he had to work closely with him all year in regard to athletics — Dr. K. also felt that he needed to be with boys his own age to develop a bit that group spirit and competitive games which Kay so shuns — I am sure Kay wants to go to Camp tho he said he would do what was best —

Arnold felt it was the best plan for him after watching him all year —

Betty Parker and I went over the expense and I said as we figured R.R. fares —

Know what the plans were he  
wasn't very enthusiastic about it.  
D.K. still felt the camp and  
its scheduled life - its group spirit,  
and Ray's interest and  
enthusiasm for it was the best  
place - So I cabled you -  
K to Camp - Mary to Colorado -  
You see I thought Alva would  
continue on to Texas and  
you would have children in  
June until you at Estes -  
Then comes your letter and  
I decided to work it all out  
again - and went down to  
D.K. - talked it over with  
Arnold and Betty Parker -  
Gene and I conferred until  
midnight then I put it up to  
the children. A letter had

Dear Mrs. Page.

Apologies are somehow out of place in a Christmas note but I'll be able to wish you a Merrier Christmas and a Happier New Year if I find ask the pardon of you and your ~~good~~ husband for the shameful way in which I've treated you. I very much appreciate your kind invitation to Christmas dinner and would be only too happy to come if I were to be in New York over the holidays. Perhaps things stand at present I doubt if I shall see the city at all during the holidays. Will you please thank (Miss or Mrs) House for me.

It is a pity that your family should be separated again so soon - particularly at Christmas. I wonder if you met the Onyds this last year in Japan - "if" people from Yokohama. They are now in Albuquerque, N. M. with a son of the brother who is also having some trouble with his health - I see that this threaten to become a

We have often thought of you many times and hope that you, Mrs Page, were greatly rested as a result of your trip.

We were in N. Y. City one day and spent all of that in the Book rooms and Board offices.

Merry Christmas to the entire family.

Dear Alma,

It looks as tho' I  
owed you a letter, several  
apologies and many thanks.

"First off" we've been enjoying  
the "World Tomorrow" which we  
doubt not is due to you.

I'm not sure that I even  
acknowledged the money <sup>in your letter</sup> and  
the various other things that  
came our way. It's a pity we  
can't take you folks in and  
have no aftermaths.

We are deeply sorry over the

It seems as tho' it were

international friendships and  
worked valiantly in so many

My dear Mrs Page - So many  
days have gone by since your  
book came - I'm ashamed. - Mr. & Mrs.  
Jey were so busy that they didn't get  
over until with it until September! I  
do thank you for it so much - and  
for "The World To-morrow" -

The fates were kind to me so I  
went to China - and had a marvellous  
time. She was kept me away from  
Tai Shan - but I had 2 weeks in  
Peiping.

and a trip to Naukua  
where I stayed at Girding.

I expect you all are  
home and sat of glad  
to be settled with

Thurs June 11,

Dear Momma,

Well! I've  
passed my life saving  
test. Boy what a  
relief. Thanks for  
sending the letters

Hurry please with  
the dress. Did  
you say you were  
~~going to~~ making it?

could I buy  
some shoes up  
here. Now  
of course theres  
the heel.

could I get a  
high Cuban?  
I think its only  
the heel that  
you're telling about.  
Or maybe you'd  
let me get a French  
heel? Don't  
mind the writing  
its being done in  
the back.

Oh say! Could

you took me wrong.  
I didn't ask you  
to buy 3 dresses.  
I said to get three  
and send and let  
me choose. I'd  
send the other back  
and you could  
return them to the  
store. You can  
do it. I hope  
the dress is ankle  
length.

Dear Kirby,

I can't call you Mr. Page!

It was so very generous of you to come here that afternoon - I know that your stock went up 1000% with three women who had not known you before (of course it is at the nth degree for those of us who do know you) and as they were representative of larger groups, it does seem that your whole

cause was served.

And now a question. Have you any idea of taking a group of college boys to Europe this summer? Think it over and let me know. And why not say "Yes"?

Thank you again — and our best wishes for much happiness during the New Year for the Page family.

Truly sincerely, Vinian Moore

Dear Alma:-

Disregarding Kirby entirely, can we make a date when you can come out for dinner and to see my black-haired babies? Wednesday, Thursday, or Friday evening are all alike for me. I'd like you to come early enough to see something of us in day-time, - say about five or five thirty - and we have dinner at seven. If Kirby can come, all the better, and we'll promise to send him away after dinner as early as need be should he have a meeting. If he can't come we'll see that you get home, too. Don't bother to answer this by this messenger. I'll call about noon tomorrow, and if you aren't there,

Mrs. Lucas can give me your answer.  
Just name your day and I'll either  
come after you or send the car. I am  
still glowing from having seen real  
"home folks" yesterday.

Affectionately,  
Eula.

Dear Ma

We got here all right except that pop lost his pants he gets them back at 10 o'clock. He lost his coat too. we are waiting for it to come right now.

Yesterday we passed over the next highest bridge in world.

It is nice and cool here. Pap won't call up anybody until his

mile corner. In Houston, Perry,  
Edith, grandma and John met us  
we went to a cafe and we got  
a flounder about 15 inches long  
I ate about  $\frac{1}{2}$  of it. I am feeling  
fine.

P. S.

Pa gave the part to the Presser  
to press and they went on with train  
when our car was switched off.

Dear Grandma

I am feeling fine. I got my horse and saddal. He sure is a fine horse; I only paid \$25 for him. My saddal cost \$35. We have not built the pool for the simple reason that we could not find a place to build it. Also what happened to Bin, I did not get the funnies. How are the little chick. How many eggs did you get.

My own Alma Dearie:

He had a splendid visit with mother. She looks better than I have seen her for years. Mr Murry is also in fine shape. They have about 300 of those wonderful white heads and ought to do well.

The boy enjoyed himself hugely. He rode old Frank all over the place and after the mail. Fed the chickens and helped around generally. Played with the kitten! Read a lot!

Am more than ever convinced that Perry & Edith could have made a go of it if they had been willing to work hard. It's too bad!

My hay fever was bad at Luffkin. Rag weed by the ton!

No word from you since leaving.  
Do take time to write - to the mother,  
children and yourself truly! It's  
important!

John drove Mother Newman in

supper & a good auto ride around  
the city.

We leave in a few minutes

The boy is in excellent shape.

Tues. - at B.O. Station

Sweetheart:

Had a good visit at League City.

Johnnie met me at the station and a little later John drove in. Stayed all night there on Saturday. They seem to be in a good humor & getting along all right. Mother looks well. Business still fair.

Preached for Lockhart on Sunday morning with all the Sterling family present. The Governor (probably) was very cordial. Talked to Episcopal young people in the evening. Had meeting at Y. W. last evening.

Berry & Edith are getting along much better. He is getting \$150 at the pool hall. It's a bad place for him but jobs are hard to get now. Talked with Lockhart & Fields & the Y. about helping him find a better place. When business picks up they will do something.

Norma broke down at  
Oklahoma City and their trip  
was cancelled. Fortunately they  
were guests in the home of a  
good doctor and so she is coming  
along all right.

Am eager to see mother  
and the boy.

Tell me about your  
trip to Banghkeepies.

Dear Alma - I must  
tell you about the good shower  
that came this morning, we are  
certainly thankful -  
we moved thirty pullets, &  
put that many back from  
the yard here - twenty fine  
roosters in the house down  
the hill, & moved cornish  
in the front yard, as there  
caught another Possum in  
the steel trap, but all we got in  
the big cage was the old starved  
cat, she wanted the bacon -  
hope you continue to feel well -

From our mountain top.

Dear Mrs. Page,

you will be wondering whether  
the postman or I ran off with  
your five dollars. Neither! But  
I did put your letter away  
where I could not find it  
for many days. Just why I  
did not put it in my  
letter file, I do not just  
remember. Eventually it came  
to light and I sent one half  
pound of jassamin tea to  
your mother. The tea and  
the postage came to \$1.25.

finished reading your husband's "Jews  
or Christianity." I mean to read it myself  
before long. Just now I am finding  
Wickes "The Inner World of Childhood"  
pretty heavy reading.

At present we are all taking a vacation  
about 120 miles from Peking. We are  
the only foreign family here. A few  
more people will come before the season  
is over. It takes us a day and a half  
by train and handcar and donkey  
to get here which accounts for the  
scarce population. But solitude, quiet,  
clean, clean air and an abundance  
of trees and all things green make  
this spot heaven after dry, hot, dusty  
Peking. And never a hot night. Most  
everyone goes to the seaside and at the  
same time in debt for a good part of  
the year. If we lived in the interior  
we would too and someday we mean  
to anyway. But we've been strong  
minded about it for ten summers. Of  
course it depends somewhat upon how  
long our children will be satisfied with  
no other playmates in the summer.  
I hope you are still enjoying your  
trip. Good luck all the way!

July 19th

Sincerely, Elizabeth H. Shaw.

(Mrs. E. H. Shaw)

You see that you have most  
of your money still coming  
to you. When I go back to  
Peking or soon after, I shall  
send your tea.

I am glad that you enjoyed  
Peking and sorry that we  
never found the little old  
man for you. I have poked  
into auctions once or twice  
since, just for fun, thinking I  
might find one at a bargain.  
But so far I've found none.  
My husband has just

Dear Alena: -

I too have a fire and  
biscuits for supper - one  
heat wave was broken at  
last and Sunday we had  
rain - so we begin to fork  
and act as tho we still  
have a little life - I

cleaned the attic today, at  
least I made a start and  
one corner is empty. Do  
hope as I grow older I will  
cultivate the collecting habit.  
There is everything in our  
attic from baby's first rattle  
to moth eaten quilts (both  
now repose in the furnace) all

So "Sunshine" goes off the 8<sup>th</sup>. What a grand jubilee we will all have. You will have to keep off the next cure for one week & year - for by the time he get- has talked out and Sunshine gets all her top sewed on and shopping done and trunk packed - well lets all go to bed to get ready for "Noble Duke's" departure!

I haven't had a fear he won't get along, old top, in living together. Guess we are all sort of peaceable folks and if I'm working like he home so little. I don't usually bother folks. Father won't come for until January or February as he now expects to spend Christmas with Esther January with Cousin Minnie Atlantic City - and February with <sup>all depends on her schedule & our orders</sup> me. ~~Since~~ well he is states three months but of course on speaking tour so will only be in and out.

From your letter I gathered you would want an extra quiet spot as you needed rest, and I wondered if you would do. We are quite a community house and folks do drop in a lot and Gene and I

Last week we had company  
and with no garden I  
was a real puzzle to know  
what to cook. I vamped  
surey old farmer who  
came to town and got one  
mess of lima beans, one of  
corn and a few green  
tomatoes! Needless to say  
no one has been over-fed.

I'm leaving Sunday  
morning for N.Y. After the  
modus of students know the  
apartment looks like heck  
and Gene begins to feel to  
blue a long time since  
I left. We will have a few  
days play before work begins.

As per usual have had lots of  
company as we are so near  
to everything. I just wanted  
that you should know and  
be guided thereby. I know  
K.P. hates to be disturbed & he  
is working and his working  
hours depend on inspiration  
and as the old Quaker says  
"When the Spirit leads". Of course  
he would cooperate - but  
I'm just naturally a social  
creature and love folks about  
and it meant a good deal  
to be able to mean something  
to the lonely student on the hill  
top - and there are lots of them.

I want that you should do  
what is best for you. This is

And of course letters are so impossible to  
decide things - I must seem to say quite  
what I intend to convey -

Only a week now until I see you  
so we will "cuss" and discuss here. I've  
written the girls to see if they can wait  
for a decision until you arrive - also  
canceled the week-end guests, so you  
come along the 31<sup>st</sup> and tell Mary  
I'll bake the birthday cake for the 2<sup>nd</sup>  
with 15 green candles -

Night - I washed yesterday, and ironed  
ten sheets and ten pillowcases today - also  
one of Dad's shirts that was as big as a  
tent - After this young hotel the apt. will  
seem tiny - I envy you your nice  
cabin in the woods - One of these days  
I'm going to play off and rest my forty  
year old bones a good long month -

Love to each and everyone -

Dear Mary,

Why don't you write? I haven't.

heard from you since January. I really want to hear from you because that would be awful if you would go away and not write once to Billie. I would feel awful!

I suppose you are not going back to camp as you said you are going south. But I hope you will be able to return to camp for at least two weeks anyway.

Most of the girls are going back and I'm going the last month.

If you are going back to camp I hope

I will see you but if you're not I  
hope you will have a nice time down  
south and won't forget to write to  
sometimes.

You certainly are lucky to be able  
to have vacation since May which I am  
not finished yet! Won't I be glad for vacation

Please write just once before you go  
Mary. I will expect a letter and will be  
sorely disappointed if you don't.

Always your friend

Billie Bernhard

# KIRBY PAGE TELLS OF HIS THREE-DAY VISIT WITH GANDHI

Lists Caste System of India  
As One of Country's  
Curses.

Three days spent with Mahatma Gandhi, leader of the civil disobedience campaign in India against Great Britain, were discussed by Kirby Page, lecturer and editor of *The World Tomorrow*, in his address before the Foundation for the Advancement of Social Sciences of Denver university Wednesday evening.

Ben M. Cherrington, director of the foundation, presided at the dinner, which was held in the Y. W. C. A. building. The lecture was Page's first since he returned from a year's trip around the world. Page came to Denver from Estes Park, where he is one of the leaders of a regional student conference.

## CALLS COMPULSORY MARRIAGE A CURSE.

Page sketched the social background of the country where more than 300 million live—one-third of them having their sole livelihood from the soil—on an average per capita income of 7 cents per day.

Gandhi was described as having a passionate devotion to the cause of freedom and the liberation of his people from British political bondage.

"My three days with Gandhi mark the richest experience of my life," the lecturer declared.

Page listed three social curses of India as compulsory marriage of children from 8 to 13 years old, perpetual widowhood regardless of the age of a wife when her husband dies, and the caste system, which divides the people in two great classes.

## SAYS AUTONOMY WILL COME SOON.

The lecturer predicted that India will win autonomy soon. Whether that autonomy will be in the form of a dominion within the empire or complete independence depends on the speed with which the British government acts, Page added.

Page admitted that England had made great contributions to India in creating law and order and improving health and sanitary conditions, but said that a foreign government, even were it of angels, would be bad.

## Lecturer Paints India in Turmoil in Denver Talk

### Tells of Days Spent With Mahatma Gandhi

Kirby Page painted India in turmoil as a background for his picture of Mahatma Gandhi, in an address last night at a dinner in the Y. W. C. A. Bldg.

The address by the noted lecturer and editor of *The World Tomorrow*, was his first since his return to America from a trip around the world, started more than a year ago.

Page spent several days with Gandhi, leader of the civil disobedience campaign against Great Britain. "My three days with Gandhi mark the richest experience of my life," he said last night.

#### Passionate Devotion

"Gandhi has a passionate devotion for the freedom, the liberation of his people from British political bondage, from poverty, and from slavery to social customs.

"There are 330,000,000 people in India. Nearly a third of them have their sole livelihood in the soil.

"The average per capita income is 7 cents a day."

As the three greatest social curses of the nation, he listed the compulsory marriage of children from eight to 13 years of age; the custom of perpetual

widowhood, regardless of the age of the wife when her husband dies, and the caste system which completely separates two great classes of Indian people.

#### Foreign Government Bad

Admitting that England had made great contributions to India in creating law and order, improving health and sanitary conditions, and aiding education and public morality, Page declared foreign government to be "bad at its best."

"If you had a government of angels themselves—if they were foreign angels—the rule would be bad," he said.

Page reviewed the Amritsar incident in which General Dyer ordered British troops to fire into an assembly of 10,000 Indians, held in violation of a proclamation prohibiting any public gathering.

#### Predicts Autonomy

More than 500 Indians are said to have been killed and nearly 2,000 more wounded.

"If you had another Amritsar," Page declared, "there is no power on earth, in heaven above or in hades below that could hold India!"

He predicted that India will win autonomy soon.

"Whether autonomy takes the form of a dominion within the empire," he said, "or whether India is lost completely and emerges as an independent nation, depends upon the wisdom and the speed of the British government.

"Unless dominion status is offered very soon, India will reject it when it is offered."

Page came here from Estes Park, where he is one of the leaders of a regional student conference.

The dinner last night was sponsored by the Foundation for the Advancement of the Social Sciences of the University of Denver. Ben M. Cherrington, director of the foundation, presided.

## BOARD WANTS TREATY PAPERS

### Agreement on Resolution Is Reached by Senate Sub- Committee

*Associated Press.*

WASHINGTON, June 11.—Agreement was reached today by the senate foreign relations sub-committee on a resolution asserting the committee's rights to the London naval notes which have been denied the committee by President Hoover.

The resolution will be presented tomorrow and its adoption has been forecast by both advocates and opponents of the treaty. What effect the resolution will have on the pact itself is uncertain.

The committee is expected to report the treaty to the senate before the end of the week or early next week.

### DEMING WILL ADDRESS WYOMING POSTMASTERS

*Associated Press.*

KEMMERER, Wyo., June 11.—W. C. Deming of Cheyenne, Republican senatorial candidate, will be one of the principal speakers at the annual convention of the Wyoming State Postmasters Association here, June 25 and 26.

Deming, former president of the U. S. civil service commission, will talk on "Progress in the Classified Civil

Sweetheart:

Have just finished my first Chapel address  
on Gandhi and it went well. Have  
8 addresses in two days!

My brain was whirling so furiously  
last night that it was not easy to sleep.  
Feel O.K. however.

Dug out my Ever Ready razor  
this morning - bought new toothbrush, etc.  
Had expected to change to my black  
shoes when I went out to the  
house in the afternoon. In the rush  
forgot all about the matter. Will have  
to get another cheap pair for use in  
Chicago.

This is a historic spot and very  
beautiful and restful.

The W. T. affair will work out  
satisfactorily - one way or the other.

Dearest Alma:-

Just a note - am dashing off to Cleveland tonight, and I've just cut some stencils on this old machine and look at the type, but Gene ran off with my pen this A.M. and so this is all I have left.

K.P. left for a \$200.00 speech in Missouri last night and I told him I'd send you a note, cause he said you were 'des feeling like the old nick, and sounded liked we were treating you just like a red headed step child - so here goes. I should have written you days and days ago, but -

I urged  
him to go  
P get the  
\$200 Ha.

Know you must feel wretched - and I've suspicioned it for several months, and frankly Alma dear I think you ought to have a rest and free of all responsibility for the next year or so. The kiddies are at that difficult state now - adolescence is no picnic for the kids or the adults - I got me many a grey hair this winter, Ha. - and I am as confident as confident can be Kenwerthy can help you a lot, if you can be free to follow her advice and greatments. She told me that she had suffered from this very same thing - migraine - it was in her family, and she knows what you are going thru and its nu fun, but she has cured herself and has not had a headache for several years - so cheer up old top and buckle up your old courage belt a little tighter, grit your new false teeth and pitch in, and we all will pull for the shore with you.

I know you will miss the children, but don't feel too badly about it, but that it is for the best all around. Kay needs it for his health and development. Mary seriously needs a scheduled life and I think Boarding School will do it. There are so many diversions here on the hill; the child was torn last year with this and that, and I honestly feel once Mary gets down to business with that little needle of hers she will go far; she has a good mind and is so quick to catch on - And most important of all YOU old sis need to get back your old spark and strength and be ready for the kiddies in the days ahead.

Why don't you come along right now and get in six weeks with Dr. (she goes off on vacation in Sept. and that would mean you would not get started until October) then go down to Virginia if it seems wise and have the month with the children and then September we will face the world as to what is best to do. I have two rooms rented now, sad to say, but that we could make part of the rent and never dreaming that you would come, but the living room and dining room and kitchen are free and the girls don't bother any, I have one good cot in the dining room, and we could put in another and you and Kirby could have these; Gene has the maid's room. I have a good woman two mornings a week and you can get her for more time if you want her. Its cool, sunny and nice and I think you would like it and would have a chance for lots of rest and the Drs. help beside. Why I even have a box of your good old "silly seed" here in the kitchen. Kirby sure laughed when he saw that. I've been taking it and its quite the cure.

Let the new teeth go - I have to have some to and we can go up to the clinic at the medical center and get it done cheap and good. Pack up your old kit bag and COME HOME AT ONCE (Don't tell the Mothers I say this, they sure would like to skin me now I fear. Ha.)

Gene comes to Ohio Aug. 1st. The students will be here until Aug. 15th. You should of seen K.P. dodging them up and down the hall going to see "Charlie". If you come at once, and I am still in Cleveland could you stop off a day or so in Cleveland and lets get caught up with the world

or had you better come straight thru. Do as you think best and what is the easiest for you.

Now remember - you are going to be heaps better. This year is just to be a prolonged holiday and you will stretch out and I'll sit by and darn socks and let you wander all over the world telling me about it.

What do you think of the plan of us "childless" parents living together? Does it appeal to you, or do you get qualms about two wimmen living in the same house - it is treacherous undertaking I know, but does have some possibilities and since you have to be good and mind I'll just boss you around like everything!?????? Hey. Of course I can't decide from my standpoint until I see what condition Father is in, and what he wants to do, I may have to bring him on with us - and then of course Dr. K. may think it wise not to; maybe I've done all the harm possible to the Page family!! Well anyway, I'll be near by to love you lots and not let you be alone - and - YOU ARE GOING TO BE WELL SOON - why you will be out there riding one of these wild west ponies with Kay in another year.

Must dash or the train will go without me. Heaps much love and send me a wire to put clean sheets on the bed and hang you up a clean bath towel, and if you do come thru Cleveland, let me know even if you can't stop, I'll come down to the train and get a kiss on the fly.

Ever and always your old 'defted Sis,

'Lizbeth Anne.

Dear Son:

We have been thinking and talking of you constantly during this voyage. How we have wished that you and Mary might have been with us.

The sea has been calm all the way and the weather rather warm. Electric fans have helped to cool us off. Each night we have slept with the fan going full blast.

The schedule of our meals has been:  
6:30 Tea in our cabin; 9:00 Breakfast; 1:00 Lunch;  
4:00 Tea; 7:00 Dinner. Thus far we have not  
felt any acute pangs of hunger!

We have spent our time reading, writing,  
walking the deck, playing bridge - and  
SLEEPING. This has been a good chance

for us to catch up.

The moon has been perfectly  
lovely on the water.

We are now in sight of India!  
In an hour we reach Karachi, where  
we stay until 9 P.M. We reach Bombay  
early Saturday morning. We hope that  
you are following our movements on the  
map.

By the time this reaches you, school  
will have been going for six or seven  
weeks! We are most eager to hear all  
about it. What studies do you like

best? What about your  
music lessons? When do  
you practice? How many  
prizes have you won in  
athletics?

I keep thinking of the  
grand times we shall have  
when we take a long trip  
together! Some of these  
days we shall go around  
the world together!

Do pray for us, that we  
may keep well and do our  
work as we should.

Daddy loves you  
a lot!
